

Use this form to upload your need for display in the database. The following points are meant as a guide and may not be applicable in all contexts. Increase your visibility by including as much information and as many details as possible. Upload pictures, drawings, project documents, and even videos if you have them.

When you finish the upload, your need will automatically be matched with relevant technologies.

All information entered in this form must be in English

Contact information (if different from person uploading)

Are you uploading needs on the behalf on another entity that would want to be contacted directly for business opportunities? If yes, please fill in with contact information of the need owner

☐ Yes ☒ No

Anonymous

Submit a need without revealing who you are; Your information are recorded in the DB, but no user information is displayed or sent to other users
